Part 6

Logging

§13-601. Title.

This Part shall be known and may be cited as the “Logging Ordinance.”
(Ord. 574, 8/4/2004; as added by A.O.)

§13-602. Purpose.

It is the intent of this Part to promote the welfare of the people of the Township by providing for the regulation of the removal of trees in such a way as to protect and preserve the environment, roads and quality of the community in general. Trees are a natural resource and an integral part of the natural landscape of the Township, providing soil erosion control, surface water flow barriers and scenic beauty, and fostering myriad plant and wildlife species. The removal or harvest of trees is therefore of prime concern to the residents of the Township and shall not be permitted, except as hereinafter provided.

(Ord. 574, 8/4/2004)

§13-603. Definitions.⁵

As used in this Part, the following terms shall have the meanings indicated:

Clearcutting—removing all or a majority of trees from the area logged.

Cutting block—an area of property to be logged, approximately 10 to 15 acres in size, depicting the phase number, defined by natural boundaries and determined by a professional forester.

Diameter limit cutting—the practice of cutting only trees above a certain diameter within the area logged. [A.O.]

Felling—the act of cutting a standing tree so that it falls to the ground.

Logging—the act of cutting/harvesting live or dead trees for cordwood, for timber, for pulp or for any commercial purpose, excepting therefrom a landowner and/or any agent of a landowner cutting on the property of the landowner for the use solely of the landowner, any properly approved clearing for development of building sites or clearing for farming operations. A landowner who cuts/harvests trees or permits such cutting/harvesting of trees upon the landowner’s property for other than the landowner’s own use is a person engaging in logging and in a logging operation. A logging operation shall include the acts of tree harvesting, site clean up and site restoration.

Professional forester—a person, who has earned a 4-year college degree in forest management, is registered with the Pennsylvania Bureau of Forestry and can demonstrate expertise in environmentally sound forest management/timber

⁵Editor’s Note: See also the general definitions contained in Chapter 1, Part 1, of this Code.

harvesting practices.

Skidding—the dragging of trees on the ground from the stump to the landing by any means.

Slash—all debris resulting from logging operations, including stems, limbs and parts thereof. “Tops” shall be the word used to refer to the upper portion of a felled tree not normally merchantable. Typically, a “top” becomes part of the “slash” produced by a logging operation.

Township Forester—a professional forester duly retained and/or designated by the Board of Supervisors and/or the duly authorized designee of the Township Manager, to serve as the Forester of the Township. [A.O.]

(Ord. 574, 8/4/2004; as amended by A.O.)

§13-604. Logging Permit Required.

Logging operations within the Township on any parcel of property over 1 acre in size shall require a logging permit. The logging permit shall be issued by the Township for the entire site, but subject to review for each cutting block. The logging operation must be completed to the satisfaction of the Township in one cutting block prior to commencement of logging operation in the next cutting block. A logging operation which moves from one cutting block to another without first receiving the approval of the Township is subject to the penalties in §13-615 and other appropriate legal processes. The cutting block phase numbers shall be shown on the timber harvest plan as prepared by a professional forester (See §13-608, “Application for Logging Permit”). A logging permit shall be valid for a period of 3 years. A one-time, 6-month extension shall be granted when requested in a statement from the professional forester hired by the property owner. If logging is conducted without or in violation of a Township logging permit, the landowner and the logging operator shall each be in violation of this Part and each shall be fully subject to all applicable fines and penalties.

(Ord. 574, 8/4/2004; as amended by A.O.)

§13-605. General Requirements.

1. The Allegheny County Conservation District (ACCD) must approve the erosion and sedimentation control plan of the property owner and/or logger who seeks to operate, or cause to operate, a logging operation. Proper erosion and sedimentation control measures, as outlined in the ACCD approved plan, shall be implemented prior to any commencement of logging activities on the property and throughout the duration of such logging activities to prevent accelerated water runoff. The first logging activities shall be construction of the roadways, trails, landings and such. The erosion and sedimentation control measures shall be maintained throughout the logging operation and until seeding has germinated.

2. Hauling or skidding or placing fills or other obstructions in perennial or intermittent streams is prohibited except as approved by a professional forester. Nothing in this Part, including the exception stated in the immediately preceding sentence, is intended to supersede Federal and/or State law relating to clean water, flowing water, fish hatcheries or the pollution of water resources.

3. Diameter-limit cutting shall not be permitted.

4. Clearcutting shall not be permitted unless approved by the Township Forester based upon a determination that: clearcutting will assist in forest regeneration; clearcutting will not cause excessive erosion and sedimentation; and clearcutting will not be done within 50 feet of any public road right-of-way or any abutting property.

5. No tree may be cut which is the largest of its species in the state.

6. No on-site retail sale of harvested wood or logs shall be permitted from the property unless the property is located in a zoning district which permits such use under the Zoning Ordinance [Chapter 27]. [A.O.]

7. No portable sawmills are permitted.

8. No tops or slash of the felled trees shall be left on any right-of-way or drainage ditch leading from a culvert, water bar, intercepting dip or break in the berm of road or in, on or within 25 feet of a property boundary line, stream, spring seep, dam, lake or public road right-of-way unless otherwise authorized in writing by a professional forester who shall not, in any way, have the power to authorize violations of Federal, State, County and Township laws, statutes, ordinances and regulations. Felling or skidding on or across any public road is prohibited without the express written consent of the Township or the Pennsylvania Department of Transportation; whichever is responsible for the maintenance of the road. No tops or slash shall be left on or across the boundary of any property adjoining the operation without the consent of the owner. All tops and slash between 25 and 50 feet from a public road or a private road providing access to adjoining residential property, or within 50 feet of an adjoining residential property, shall be lopped to a maximum height of 4 feet above the surface of the ground. Tops of trees may be left in retired skid trails to discourage unauthorized entry if desired by the owner. [A.O.]

9. Logging operations shall be conducted at a time of the year when the Township Forester determines that the least amount of environmental damage will occur and are subject to being shut down if they occur at other times. A logging operation and its principles shall be subject to the penalties in §13-615 for violation of this requirement.

10. Littering resulting from a timber harvesting operation shall be removed from the site before it is vacated by the operator.

11. When a logging operation has been completed, all disturbed areas such as the landings, roads and critical areas must be seeded with annual grasses as determined by the Township Forester upon completion of the logging operations.

12. Access roads shall be permanently blocked. The Township shall choose the appropriate post-harvest security. When the logging operation on a parcel has been completed, the access road shall be permanently blocked and kept as such.

13. Roads and trails shall be constructed, maintained and abandoned in such a manner as to prevent soil erosion and permanent damage to soil and waterways. Roads and trails shall be only wide enough to accommodate the type of equipment used and the grades of such roads and trails shall be kept as low as possible. [A.O.]

14. Applicants shall comply with §27-214 of the Zoning Ordinance [Chapter 27].

15. Applicants shall comply with all other applicable Federal, State, County and Township laws, statutes, ordinance and regulations. [A.O.]

(Ord. 574, 8/4/2004; as amended by A.O.)

§13-606. Use of Township Roads.

1. For all logging operations, prior to hauling on any Township road, financial security shall be posted in accordance with §13-607 hereof. The Township Engineer and/or his designee shall prepare a report prior to hauling to establish the existing road condition and for the purpose of establishing reasonable times and conditions for hauling logs so that damage to the road will be minimized. Such conditions may include, without limitation, limiting hauling to dry periods. The Township shall be notified during normal working hours as to when hauling will begin from a cutting block so that the first truck can be followed to determine if the roadway is being damaged.

2. A logging operation shall keep any roadway over which it hauls logs or other logging residue clean and free of mud and debris to the extent that such roadway mud, debris or similar material is the result of vehicles traveling to and from the logging operation. At the point of access, the logger shall construct an aggregate entrance area to support the roadway edge. No parking of logging vehicles or storage of logs shall be permitted in the Township road right-of-way. Water from the logging area shall not be discharged onto the roadway surface. [A.O.]

3. No cutting or loading shall take place between the hours of 5 p.m. and 7 a.m. Monday through Saturday and all day Sunday and Federally designated legal holidays. (*Ord. 574, 8/4/2004; as amended by A.O.*)

§13-607. Financial Security Required.

All financial security required by this Part shall comply with the requirements of the Financial Security Ordinance, [Chapter 1, Part 7].

A. *Performance Security.* Prior to the commencement of a logging operation, the applicant shall post financial security guaranteeing restoration of the property logged or of any other property damaged by the logging operations. This financial security shall be in an amount acceptable to the Township Engineer, and said amount shall be based upon the actual area of soil disturbance as delineated in the timber harvest plan. The Township shall be given 3 business days advance notice, in writing, by the contractor, owner or any other party conducting a logging operation, for the purpose of permitting the Township to inspect the site and approve/disapprove logging work proposed to begin on a cutting block which has not previously been the subject of logging under the approved timber harvest plan. Such initial notice may not be given on a weekend or official Township holiday and must be hand delivered to the Township's offices. The contractor, owner or any other party conducting the logging operation shall contact the Township within three business days after final operations have been completed. The Township Forester, Township Engineer or Code Official shall complete a post-harvest inspection of the subject property. The performance financial security will not be released by the Township until a post-harvest report indicates that land restoration has been completed to the satisfaction of the Township.

B. *Road Financial Security.* Prior to hauling on any Township road, the applicant for the logging permit shall post separate financial security to guarantee restoration of Township roads damaged by the hauling. This financial security, including the amount, type and form, shall also comply with the vehicle size and

weight regulations of Chapter 15, Part 3, of this Code.
(Ord. 574, 8/4/2004; as amended by A.O.)

(Ord. 574, 8/4/2004; as amended by A.O.)

Part 7**Adult Oriented Business****§13-701. Title.**

This Part shall be known and may be cited as the “Adult Oriented Business License Ordinance.”

(*Ord. 464, 7/9/1997*; as added by A.O.)

§13-702. Purpose and Findings.**1. Purpose.**

A. Pursuant to the authority granted in the Second Class Township Code, 53 P.S. §65101 *et seq.*, to prohibit nuisances; to promote the health, welfare, cleanliness, comfort and safety of the citizens of the Township; and to regulate the time of opening and closing, and the conduct of places of public entertainment, amusement and recreation, the Township enacts this Part to minimize and control the adverse secondary effects of adult oriented businesses and thereby protect the health, safety and welfare of its citizens; protect the citizens from increased crime; preserve the quality of life; preserve the property values and character of surrounding neighborhoods; and deter the spread of blight.

B. The Board of Supervisors has determined that licensing is a legitimate and reasonable means of accountability to ensure that operators of adult oriented businesses comply with reasonable regulations and to ensure that operators do not knowingly allow their establishments to be used as places of illegal sexual activity or solicitation.

C. The Board of Supervisors does not intend this Part to suppress any speech activities protected by the First Amendment, but to enact a content neutral ordinance which addresses the secondary effects of adult oriented businesses.

2. Legislative Findings. The Board of Supervisors finds:

A. Adult oriented businesses have adverse secondary effects which should be regulated to protect the public health, safety and welfare. These secondary effects include, but are not limited to the spread of communicable diseases, performance of sexual acts in public places, presence of discarded adult oriented materials on public and private property, sexual harassment, obscenity, prostitution and other illegal sexual activities, crime and neighborhood deterioration.

B. A reasonable licensing procedure is an appropriate mechanism to place the burden of that reasonable regulation on the owners and the operators of the adult oriented businesses. Further, such a licensing procedure will place a heretofore nonexistent incentive on the operators to see that the adult oriented business is run in a manner consistent with the health, safety and welfare of its patrons and employees, as well as the citizens of the Township. It is appropriate to require reasonable assurances that the licensee is the actual operator of the adult oriented business, fully in possession and control of the premises and activities occurring therein.

C. Removal of doors on viewing booths and requiring sufficient lighting on premises with viewing booths advances a substantial governmental interest in discouraging the illegal and unsanitary sexual activity occurring in adult theaters.

D. Requiring licensees of adult oriented businesses to keep information regarding current employees and certain past employees will help reduce the incident of certain types of criminal behavior by facilitating the identification of potential witnesses or suspects and by preventing minors from working in such establishments.

E. The disclosure of certain information by those persons ultimately responsible for the day-to-day operations and maintenance of the adult oriented businesses will help limit and control the adverse secondary effects of such businesses.

F. It is desirable in the prevention of the spread of communicable diseases to obtain a limited amount of information regarding certain employees who may engage in the conduct which this Part is designed to prevent or who are likely to be witnesses to such activity.

G. The fact that an applicant for an adult oriented business license has been convicted of an adult related crime leads to the rational assumption that the applicant is likely to engage in that conduct in contravention of this Part.

H. The barring of such individuals from the management of adult oriented businesses for a period of years serves as a deterrent to and prevents conduct which leads to the transmission of sexually transmitted diseases.

I. The general welfare, health and safety of the citizens of the Township will be promoted by the enactment of this Part.

J. Limitation of operating hours of adult oriented businesses to 10 a.m. to 10 p.m. Mondays through Saturdays and closure of such businesses on Sundays and holidays reduces the adverse secondary effects of such businesses, including particularly but not limited to late night noise levels, crime and sexually offensive materials and activities in public areas, and further promotes the public health, safety and welfare.

K. The reasonable regulation and supervision of such adult oriented businesses tend to discourage sexual acts and prostitution and thereby promote the health, safety and welfare of the patrons, clients and customers of these businesses.

L. The continued unregulated operation of such adult oriented businesses is and would be detrimental to the general health, safety and welfare of the citizens of the Township.

(Ord. 464, 7/9/1997; as amended by A.O.
