

COMMERCIAL BUILDING PERMIT APPLICATION CHECKLIST

TOWNSHIP OF MOON

This checklist is intended as a general list of what may be required for the building permit. Before submitting for a permit, communicate with the Building Code Official, dmeinert@moontwp.us, to verify what exactly is required for your specific job.

<input type="checkbox"/>	Fill out and sign the "Commercial Building Permit Application" form. Incomplete application can result in a denied permit.
<input type="checkbox"/>	Fill out the separate "Electrical Permit Application" and include the electrical permit fee check , payable to "Township of Moon".
<input type="checkbox"/>	Fill out and sign the "Permit Agreement" form.
<input type="checkbox"/>	Fill out and sign the "Workers Compensation Affidavit of Exemption" form OR Provide proof of Workers Compensation Insurance Certificate and name Moon Township as a certificate holder.
<input type="checkbox"/>	Fill out and sign the "Design Professional Certification".
<input type="checkbox"/>	Provide 2 complete sets of construction drawings (<i>stapled and binding strip</i>) with Design Professional Seal as per attached "UCC Plan Review Checklist" (include building, structural, mechanical, fuel gas, plumbing, energy, com-check, and accessibility plans and details in compliance with ICC A117.1 "Accessible and Usable Buildings and Facilities" fire protection and alarm, shop fabricating drawings.
<input type="checkbox"/>	Provide 2 complete, folded sets of electrical only drawings with Design Professional Seal.
<input type="checkbox"/>	Provide 2 complete, folded sets of Site Utility plans with Survey Engineer Seal. Show accessible route and accessible parking.
<input type="checkbox"/>	Provide 2 copies of Energy Conservation Code Compliance Certification Perceptive Method or approved method with details and specifications.
<input type="checkbox"/>	Provide statement of special inspections as per International Building Code, Chapter 17, Section 1704.1.1 (<i>use Township provided forms and guide</i>). Submit completed and signed "Special Inspections Agreement". Submit information, qualifications, resumes on the special inspections company and each special inspector.
<input type="checkbox"/>	Provide previous PA Labor and Industry Occupancy Permit if this is an existing building constructed before April 9, 2004.
<input type="checkbox"/>	Provide DEP Planning Module and letter of approval from MTMA for sewer and water service.
<input type="checkbox"/>	Provide final approval from Moon Township Planning Commission and Moon Township Board of Supervisors Conditional Use and Zoning Variances.
<input type="checkbox"/>	Provide rooftop, mechanical equipment, and screening details.
<input type="checkbox"/>	If applicable, fill out the "FAA Notification Affidavit – FAA Form 7460-1 – Notice of Proposed Construction or Alteration" required for all construction projects only required when using a crane.
<input type="checkbox"/>	Provide Health Care Facilities State UCC Compliance and PA State Licensing Regulations/State Department of Health Plan approval verification.
<input type="checkbox"/>	Provide Child Day Care Facilities PA State USS, Section 403.23 review and approval.
<input type="checkbox"/>	Provide Wind Load Calculations as per IBC minimum design 90 mph.
<input type="checkbox"/>	Provide Pennsylvania Highway Occupancy Permit.
<input type="checkbox"/>	Carnot Village or University Boulevard Overlay District.

Plumbing Permit and plumbing inspections are through Allegheny County Health Department, Plumbing Division, (412) 922-6270 or <http://www.achd.net/plumbing/plans.html#>.

The Applicant/Owner hereby certifies that the statements made herein and representations contained in all accompanying matter part of this application are true and correct. The Applicant/Owner shall be responsible for reviewing and fully understanding all permit conditions and insuring compliance to all applicable codes and ordinances. The Applicant/Owner shall also be responsible for any fees incurred in relation to the above project. The Applicant/Owner grants Moon Township Officials the right to enter onto the property for inspecting the work permitted and posting notices. As Applicant, I hereby certify that proposed work is authorized by the Owner of record and I have been authorized by the Owner to make this application as his authorize agent.

Applicant/Owner's Signature: _____ Date: _____

In considering of the issuance by the Township of Moon (the "Township") of a Building Permit, Zoning Permit and other permits for the property located at _____ and to the undersigned property Owner(s) or the Agent(s) (the "Applicant"), the Applicant acknowledges that, in reviewing plans and specifications, in issuing permits and inspection work of the Applicant; the employees, consultants, elected or appointed official of the Township are only performing their duties to require compliance with the minimum requirements of the applicable ordinances of the Township and the minimum requirements of the applicable ordinances of the Township and the Pennsylvania Uniform Construction Code pursuant to the police power of the Township and are not warranting to the Applicant or to any third party the quality of adequacy of the design, engineering or work of the Applicant or their agents or contractors.

Applicant further acknowledged that although plan review and inspections will be provided, it will not be possible for the Township to review every aspect of the Applicant's design and engineering or to inspect every aspect of the Applicant's work. Accordingly, neither the Township nor any of its elected appointed officials, consultants, or employees shall have any liability to the Applicant for defects or shortcomings in such design, engineering or work, even if it is alleged that such defects or shortcomings should have been discovered during the Township's review or inspection, Furthermore, the Applicant agrees to defend, hold harmless and indemnify the Township, its elected officials, consultants and employees from and against any and all claims, demands, actions, and causes of actions of any one or more third parties arising out of or relating to the Township's review or inspection of the Applicant's design, engineering, or work or issuance of a permit or permits, or arising out of or relating to the design, engineering or work done by Applicant pursuant to such permit or permits. All references in this Agreement to Applicant's design, engineering or work shall include such design, engineering, and work, which is performed by the Applicant or by the Applicant's employees, agents, independent contractors, subcontractors or any other person or entities performing work pursuant to the issuance of the Building Permit Zoning Permit and other permits by the Township.

WORKERS COMPENSATION AFFIDAVIT OF EXEMPTION

TOWNSHIP OF MOON

The undersigned swears or affirms that he/she is not required to provide workers' compensation insurance under the provisions of Pennsylvania's Workers' Compensation Act for one of the following reasons, as indicated:

- Contractor is a sole proprietorship with no employees.
- Religious exemption under Section 304.2 of the Workers' Compensation Law.
- Contractor is a corporation and the only employees working on the project have and are qualified as "Executive Employees" under Section 104 of the Workers' Compensation Act. Please explain:

- Owner is the Contractor
- Other: Please explain: _____

Please be aware of the following requirements under the Pennsylvania Workers' Compensation Act:

1. Any subcontractors used on this project will be required to carry their own workers' compensation coverage.
2. Violation of the Worker's Compensation Act or the terms of this information form will subject the Contractor to a stop-work order and other fines and penalties as provided by law.

My signature on behalf of or as the Contractor as stated on this form constitutes my verification that the statements contained here are true.

FAA NOTIFICATION AFFIDAVIT

FAA FORM 7460-1

NOTICE OF PROPOSED CONSTRUCTION OR ALTERATION

TOWNSHIP OF MOON

Federal Regulation (14 CFR) Part 77 establishes standards and notification requirements for objects affecting navigable airspace. This notification serves as the basis for:

- Evaluating the effect of the construction or alteration on operating procedures.
- Determining the potential hazardous effect of the proposed construction on air navigation.
- Identifying mitigating measures to enhance safe air navigation.
- Charting of new objects.

Notification allows the FAA to identify potential aeronautical hazards in advance thus preventing or minimizing the adverse impacts to the safe and efficient use of navigable airspace.

On-Airport proposals within the FAA Central Region, the sponsor should E-file the required information at <https://oeaaa.faa.gov/oeaaa/external/portal.jsp>.

Off-Airport proposals, the sponsor should make every attempt to E-file the required information at <https://oeaaa.faa.gov/oeaaa/external/portal.jsp> if unable mail the completed 7460-1 form to the following address:

Mail Processing Center
Federal Aviation Administration
Southwest Regional Office
Obstruction Evaluation Group
10101 Hillwood Parkway
Fort Worth, TX 76177

Persons failing to comply with the provisions of FAR Part 77 are subject to civil penalty under Section 902 of the Federal Aviation Act of 1958, as amended and pursuant to 49 U.S.C. Section 46301(a).

I, _____ acting on behalf of the Owner/Contractor
(Name)

_____ Hereby affirm that the Notice of Proposed Construction or
(Owner/Contractor Name)

Alteration FAA Form 7460-1 has been provided to the Federal Aviation Administration (FAA) a minimum of

45 days prior to construction for _____

Installed/Tested By: _____ Date: _____

CODES AND STANDARDS ENFORCED UNDER THE UCC

TOWNSHIP OF MOON

The codes applicable to work for which a construction permit is sought on or after October 1, 2018, are the 2015 editions of the International Codes adopted the UCC Regulations, as modified by the PA UCC RAC, are now to be used for construction project design, plan review and inspection purposes.

If your project was under contract for design or construction before October 1, 2018, you may submit plans and specifications based upon 2009 ICC Codes with your permit application through March 31, 2019 if accompanied by an executed copy of your contract.

The PA DCED Industrialized Housing Program regulatory update is lagging behind the PA DLI UCC update, so production of new industrialized (modular) homes utilizing 2015 ICC Codes will not take effect until April 1, 2019.

After April 16, 2016, Chapter 11 and Appendix E of the 2015 International Building Code and the accessibility provisions of the 2015 International Existing Building Code and the ANSI A117.1-2009 Accessible and Usable Buildings and Facilities, are applicable.

The 2018 IBC regulations for accessibility are expected to become effective December 31, 2018.

Only these codes as first published, and their errata are applicable in Pennsylvania. For further information about the codes and standards adopted, go to the Pennsylvania Uniform Construction Code website (<https://www.dli.pa.gov/ucc/Pages/UCC-Codes.aspx>).

SITE PLANS

- Site plans shall be prepared to scale, with legend, north arrow, and **separate** vicinity (site location) map.
- Show the correct street address, parcel number and required municipal zoning (if there is local zoning ordinance) on the site plans.
- Show and identify all property lines and rights-of-way, with distance from property lines and adjacent buildings on site plans.
- Show all accessible parking spaces and signage per ICC/ANSI A117.1 and the *International Building Code* on site plan. Provide enlarged dimensioned plan and details for all accessibility components.
- Show accessible curb cuts, ramps and access ways to the building, accessible route from parking to building.
- Show all existing and proposed driveway entrances.
- Identify adjacent land uses and zoning.
- Show all easements, flood ways, and required buffers.
- Show existing and proposed utilities to serve the site, including fire hydrant locations.
- Show existing and proposed finish grades.
- Show details, sections, and elevations needed for construction.
- Show all buffer and screening landscaping.
- Show all required parking and loading spaces and calculations.

TITLE PAGE COVER SHEET

- Written Scope of Work
- Sheet Index
- List of Applicable Codes (*see Codes and Standards Enforced under the UCC, attached to this packet*)
- Code analysis/code data, type of construction, IBC Use Group occupancy classification, number of stories, fire sprinkler, fire alarm, floor area of renovation/new, occupancy load calculation, energy compliance depth, height and area, etc.
- Name and Address of Project
- Contact, Architect, and Property Owner Information (*including name, mailing address, email, and contact number*)
- Design Professional Seal and Signature
- Location Map

ARCHITECTURAL PLANS

- Show architectural floor plans of each floor. Indicate the approved, tested hourly rating, number and location of all members and assemblies (walls, columns, floor and ceiling, and ceiling and roof fire-rated design assemblies). Show all fire-rated walls (both existing and new) with their ratings, if not shown elsewhere. Drawings submitted without required fire-rated walls shown will be rejected.
- Show the square footage of each floor on the corresponding floor plans.
- Identify the names and uses of each room.
- Egress, travel distance, door, stair, capacity requirements, etc. Furnish floor schedule(s) including size, type, rating (if any), and hardware.
- Provide all glazing schedules.

- Show elevations with dimensions defining overall building height, floor-to-floor heights or heights to ridge and eave as applicable to the type of building construction listed on the UCC application. (Note: Where an existing building is involved, photographs of all sides of the building may be submitted to show elevations. **These will be acceptable only if they show all elements necessary to determine compliance with the UCC.**)
- Provide basement percentage-below-grade basement calculations.
- Indicate roof slopes, drainage system and sized through wall scuppers, if applicable to the project.
- Show fixed seating for assembly occupancy to allow determination of occupancy posting required by *International Building Code*.
- Show wall sections with proposed material sizes, construction and fire-rated assemblies.
- Show proposed plumbing fixtures and privacy screens on the plans.
- If masonry construction is proposed, include the following information:
 - Type of brick ties
 - Control joints
 - Placement of wall flashing and reinforcement.
- If appropriate for the proposed occupancy, plans should identify all hazardous material control areas, fire barriers and the required fire-resistance ratings for these barriers. All identified control areas shall list the name, class, quantity and method of storage of all hazardous materials processed, manufactured or used in a manufacturing process and contained within its fire barriers. Provide a Material Safety Data Sheet for each listed hazardous material.
- Show the floor slab vapor barrier.
- Show foundation water-proofing, if applicable.
- All penetrations of fire-rated construction must be per manufacturer's details. The details shall meet or exceed the rating of construction being penetrated. The penetration details shall be exactly as tested by an approved testing laboratory or agency and shall include their system numbers. New penetrations of existing fire-rated walls and assemblies shall be shown with appropriate designs.
- Show penthouse drawings.
- Provide on the drawings the calculations for the means of egress widths for the entire floor occupancy load and the existing capacity of all exits including all stairs, doors, corridors and ramped exits.

FIRE PROTECTION PLANS

- Complete a sprinkler design data sheet and include it on the first plan of the sprinkler drawings.
- Show floor plans for each floor with sprinkler piping layout, pipe sizes, pipe hanger details, piping materials, doors, walls and room identities. Often, these shop drawings are not available at the time of initial plan submission. If this is the case, write in "NA," but note the following:
 - These shop drawings must be submitted for department review and approval **at least two weeks before the projected installation date**.
 - Failure to obtain approval of these drawings before installation could result not only in delay of the final inspection and issuance of an occupancy permit, but also in removal and reconstruction of installations which fail to meet UCC requirements.
- Show ceiling plans with sprinkler head(s) layout, walls, soffits, openings, doors, dimensions and room identities.

- Verify system design by providing hydraulic calculations along with the following:
 - Recent water flow test.
 - Ten percent safety margin.
 - Type of backflow-preventer or reduced pressure zone showing equivalent foot loss.
 - Fire pump summary.
- For residential occupancies such as apartments and condominiums, show sprinkler head locations at breezeways, if applicable.
- Indicate the certified testing laboratory agency (e.g., U.L.), their test number and hourly ratings of all new and/or affected rated members and assemblies (i.e. columns, beams, floor/ceiling and ceiling/roof fire-rated design assemblies). Show all new and/or affected fire-rated walls with their ratings, if not shown elsewhere.
- All penetrations of fire-rated construction must be per manufacturer's details. Details shall meet or exceed ratings of construction being penetrated. Penetration details shall be exactly as tested by a certified testing laboratory or agency and shall include their system numbers. All new penetrations of existing fire-rated walls and assemblies shall be shown with appropriate designs.
- Provide a fire alarm riser showing connection to a UL-approved central station. Show tamper switches on both OS and Y valves of backflow prevention device, unless shown elsewhere.
- Indicate commodity class and height of any storage.
- Provide Material Safety Data Sheets for any hazardous materials (also specified under "**Architectural Plans**").
- Where special temperature-rated or high-temperature sprinklers are required, show sprinkler type(s) per area, office size, cut sheets with K-factor, water requirements, spray pattern, coverage and other pertinent data.

SYSTEM CALCULATIONS (FIRE PROTECTION)

Hydraulically calculated and pipe schedule fire systems should be designed with a ten percent safety margin for all new buildings and additions to existing buildings. Calculations for hydraulic systems should include:

- Flow and pressure at each flowing sprinkler head.
- Flow diagram for a grid system.

MECHANICAL PLANS

- Show all required wall louvers, penetrations and fans.
- Indicate roof-mounted equipment locations.
- Show all mechanical equipment, piping, ductwork (above/below slab) on the mechanical floor and/or roof plan.
- Provide mechanical plans for each floor and the roof. These shall show the ductwork layouts, schedules, notes, legends, piping schematics, and details necessary to define the system being installed.
- Indicate air distribution devices and show cfm for all supply, return and exhaust devices.
- Indicate the location of all equipment components required for a complete system.
- Show the smoke ventilation of atriums and pressurization of high-rise stairwells.
- Show condensation drains, primary and secondary, from the unit to the point of discharge.
- Indicate toilet exhaust requirements.
- Show mechanical room layouts at sufficient scale for dimensions and details to be ascertained.
- Show the size of duct runs.
- Indicate controls for fan shutdown: emergency manual and automatic smoke detection.

- Show the location of all UL 555-certified fire dampers, ceiling radiation dampers, smoke dampers, and fire doors.
- Show all fire-rated walls (both existing and new) with their ratings on the mechanical plans.
- All penetrations of fire-rated construction must be per manufacturer's details.
- Room names and numbers for each floor should be on a floor plan for each level.
- Provide outside air ventilation rate, fresh air as per the *International Mechanical Code (ICC)*.
- Column line notations, if provided on the architectural/structural plans, shall be identified on the mechanical plans.
- Provide gas piping layout on the floor plan for each floor. If it is a multi-story building, all gas piping shall be shown per floor. Include pipe sizes, water column, and type of material. Provide a schedule of connected equipment, total BTUH demand, total equivalent length, and most remote gas appliance.
